The issue of road rage requires serious attention. Day by day, it is becoming a great concern. Call it the negligence of the government or the rashness of the drivers, the underlying fact is that at the end of the day, the common man is the one who suffers the most. The commoner driving a two-wheeler who is hit by a speeding SUV, even though the former was following the traffic rules, has nowhere to go in order to seek redressal for his grievances or his injury. A recent case in point is the accident caused by the speeding luxury car owned by Hema Malini. A family of four driving a modest Alto was hit by the overspeeding car driven by the actress's driver. It resulted in the death of the youngest child of the family and several injuries to the other family members. To add insult to injury, Malini posted negative comments on a famous social networking website.

Part of the problem lies with the attitude and mentality of the driver behind the steering wheel. The car is a personal vehicle and one possesses the freedom to drive it independently and at one's own will. But one must understand that the road on which one drives is open to the public. This blurring of the dichotomy between the public and the private leads to reckless behaviour on the roads. Respect for the elderly and pedestrians, so common in countries abroad, is a thing of rarity to be found in our land. A little consideration to road rules and adoption of simple safety measures such as fastening of the seat belt, can go a long way in reducing this menace.

- 1) Why does common man suffer grievously in instances of road rage ?
 - 2) Where does the problem lie ?
 - 3) What should the driver understand ?
 - 4) What is the solution to this problem of road rage ?
 - 5) Suggest a suitable title to the passage.
